Injured Stop the Steal marchers that want to file complaints against what appeared to be Homeland Security Officers. Notified we had until 6pm and the event was extremely loud. No announcements over any loud speakers or text messages from city officials and then suddenly officers were shooting tear gas and pepper balls, throwing marchers from steps, using batons, pepper spray, etc.

Several marchers were unable to leave area due to area being crowded and lack of clear direction from law enforcement. No loud speakers being used by police, or text messages giving specific directions to marchers. Multiple bystanders sustained serious injury and we asked for a supervisor and medical attention from officers who just ignored us.

Injured victims were forced to walk on injuries as they were continually pushed and ignored when requesting a supervisor and medical attention. Many incidents caught on video camera of injuries and officers ignoring bystanders when asked to call for medical attention.

Excellent style as always. Clean.

We have a plan to take back the Web and Internet from tech companies and the corrupt deep state which controls ICANN. We are now going fully throttle and pushing everything out for it

Be safe Ali let,Âs speak after you get back.

May God bless you with speed and a clear mind for what lies ahead, Amen.

Go in peach and rest tonight knowing the resistance is getting a new communication framework a new Web. We must use the people and the masses to dethrone all these tech companies and reset them on their own turf.

They made you stronger than you,Âll ever know

\*\*\*NOTE to Outgoing Texts to Roger Stone: Mr. Alexander sent these texts while en route to the Capitol from the President's Ellipse Rally Speech wherein the President requested people proceed to the Capitol peacefully. While the language Alexander used may have been salty and not the language one would use at the dinner table with family, it was customary for Stone and Alexander to chide each other with salty language and challenge each other to answer the President's challenges to the public to peacefully protest. In short, the order was the general challenge from the President to his many supporters gathered in DC to peacefully march and peacefully protest and not a personal or direct order to Alexander or Stone. Alexander merely was urging Stone to join him in Lot 8 for the previously scheduled peaceful prayer rally. Upon arriving to the Capitol area AFTER sending these two texts to Stone, Alexander saw chaos unfolding and, as a result, his planned peaceful prayer rally and protest never happened.
