Nunes, and Cruz won't be able to attend so that opens a gap.

Ken Paxton is attending if you think we should backfill. Or not.

Fine either way. I like giving options.

I say we leave it, IT never came up about the announce so we can just do voice of god for the boss

She's not pinned. She got Maggie pinned

Can I pull that?

She's going to try and get Roger Stone on the stage.

I'm not going to embarrass potus

Can't have it

Maggie won't help her

And we need her for VIP's right?

Maggie took and held all the credentials

We can pull her credential

Ok so that's an option.

Ali is nuts and I think they'll rush the stage. I've seen them before

Rush the stage???

Yes

Tim Unes is controlling OSA, Justin will be back there as well

Alex Jones tried at our last one and someone jumped up and too the mic out of his hand. They are nuts

Yeah

What's even worse is that we just lost the senate

We're fuxked

That's why they can't go poorly

They will take this opportunity

Max, Caroline won't let our VIP's in now. See this is going to go from bad to worse.

Now shes controlling the seating. Who is in charge here??

In*

Have our security escort her out

She and they don't have credentials

And*

She's taking over the event

If I'm in charge of this event how can I get her out? She's making the decisions.

Do we have our own Security? If so, get who's name on the permit to have security escort her out

I have the permit.

And ok

If your name is on it, you can have security give her the boot

Ok. Wasn't sure what the options were. I need this resolved now so things can go smoothly

Or you can call Mark and see if he

She's awful

Well, I had officers there to escort her ass off the property because she was going to try and get at least one on the stage. Over my dead body was that happening.

Let me know if you guys need anything. If he wants to lead the modern revolution "peacefully" I'm down. There has to be a strategy. I'm going to lean in regardless once the dust settles.

He should declassify the swamp.

We've gotta figure something out

It would make his life a lot easier if he would just declassify all the corruption in DC. Then people would understand the seriousness.

Draining the swamp is something he should have done the moment he stepped into the building.

Their main focus is Caroline, but this is the perfect time to clear everyone there.

I remember specifically asking him who because I showed him a text from Mark that said for me to make the call because he only trusted my judgment but he didn't say who
