Election Hearing Report and Assessment

On November 25, we held a hearing in historic Gettysburg where hours of testimony were presented regarding violations of voting law in Pennsylvania. The purpose of the hearing was to find out what happened in Pennsylvania after being contacted by thousands of people from across the Commonwealth sharing stories of violations of election law related to the November 03, 2020 general election. The hearing demonstrated that there is rampant election fraud in Pennsylvania that must be investigated, remedied and rectified.

We heard personal testimony from citizens who experienced violations of their rights. Expert witnesses additionally testified about statistical anomalies that occurred, which changed the outcome of the election. In one such spike, hundreds of thousands of votes were dumped in a processing facility with 570k of these going for former Vice President Biden, and a paltry 3,200 for President Trump (99.54% for Biden and 0.56% for Trump).

Other irregularities included:

- Mail-in ballots were not inspected by Republican representatives in areas of Philadelphia and Allegheny County
- Montgomery County was never provided with guidelines from State Department Secretary about “curing” defective ballots
- Spikes depict more ballots being processed during specific periods than voting machines are capable of tabulating
- The Philadelphia Board of Elections processed hundreds of thousands of mail-in ballots with zero civilian oversight
- Ballots were separated from envelopes in numerous precincts; a recount is useless because the votes cannot be verified

- Observers were corralled behind fencing in Philadelphia, at least 10 feet away from processors; similarly, in Allegheny County, observers were placed at least 15 feet away
- Mail-in ballots were already opened in portions of Allegheny County; no one observed the opening of these ballots
- Illegal “pop-up” election sites developed, where voters would apply, receive a ballot and vote
- Forensic evidence in Delaware County has disappeared
- A poll watcher with appropriate certificates and clearances was denied access
- Little observation of ballots in Montgomery County, and no signature verification
- A senior citizen voted for President Trump, but it was not displayed on receipt
- Election workers illegally pre-canvassed ballots in Northampton County; no meaningful canvas observation was permitted

Despite the evidence, our Governor and Secretary of State decline to investigate these serious allegations. It is appalling that elected officials and the mainstream media are refusing to acknowledge the material fact that there are rampant voting problems in our state and show little regard for the sanctity of the election. Every *legal* vote must count and any who cheat in an election must be held accountable. Our Republic cannot long endure without free and fair elections.

The United States of America has spent millions of dollars and put her men and women in harm's way to oversee safer, more reliable and freer elections in Afghanistan, Iraq, Kosovo and Bosnia. Why is the very state where the Light of Liberty was lit in 1776 is unable or unwilling to have elections as free and safe as war-torn Afghanistan? Something is seriously wrong in this Commonwealth and unless this is corrected, our republic cannot long endure.

This election is an embarrassment to our nation. John Adams rightly said that, "Facts are stubborn things," and armed with this, as Jesus stated, "We shall know the truth and the truth shall set us free." What happened on November 3, 2020 must be immediately addressed using facts and the personal testimony of the good people of our state.

Sincerely,
