@realDonaldTrump

Peter Navarro releases 36-page report alleging election fraud 'more than sufficient' to swing victory to Trump <https://washex.am/3nwaBCe>. A great report by Peter. Statistically impossible to have lost the 2020 Election. Big protest in D.C. on January 6th. Be there, will be wild!

18-Dec-20 11:42 PM

I had an encounter with two very different men regarding the election. I was on a call with [Sen. Ron Johnson](#), [General McNernay](#) and others with some close ties to DC happenings. I'm not sure how I got invited to the call but I was glad to be there.

The discussion was about election integrity. Sen. Johnson adamantly proclaimed there was no wide spread fraud in the election. He said over and over again there was no evidence. Even though others on the call pointed out people who had claimed they saw it with their own eyes, signed affidavits to the fact and had videos of fraud — he said he didn't believe it. He didn't believe those good people who signed their name and have been threatened with their very lives. It was stunning to watch him be so stubborn and refuse to see what we all have seen. What I observed was a very scared man. He also stated that President Trump declaring martial law would be the worst thing ever for our country. Even though the entire time he was speaking, he was talking about our Constitution which includes the authority for the President and Congress to declare martial law.

General McNernay was the complete opposite. He had intel and he is not a man to lie. He spoke as a man of authority and without fear. He stated this stolen election was High Treason and must be dealt with now or America would be under rule of a foreign country — specifically China. He believes President Trump

must do anything within his power to save America. He went on to say he has never seen anything so wicked in all his time in the military and he had seen a lot.

I hung up the phone with these thoughts:

1. We are holding our faith in Congress to do the right thing and stand with Trump. I do NOT believe we have enough fearless leaders in the Senate or the House to do that. Most are weak men and women who want to cower in their offices and wish this issue would go away. They are actually mad at Trump for shining a light on it. Democrats and Republicans alike are furious at this man who is standing up for We the People. If there are any in Congress who will stand with Trump, we need to hear from them now.
2. The military seems to be the only ones who get it. They have seen what we as regular folks have not seen. They have the truth and they are helping Trump unleash it so we can ultimately live in peace. That is what we are suppose to do — live in peace!
3. If indeed martial law is called, Trump's martial law will be very different. People who are locked down, unable to open their businesses, told to shut up and stay put — are already experiencing martial law. Trump will unleash them! That declaration will set in motion the ability to take down Antifa, Black Lives Matter and others who are destroying cities.
4. The evidence IS there! Those who refuse to see it are weak and fearful. Talking points stating “there is no evidence” is ridiculous and tiring. We are not stupid. We see it. Those who don't see it — are stupid! And those American citizens who are willing to sacrifice their lives to get the truth out — are better and stronger patriots than those who sit in Congress sucking their thumbs. I would rather have them with me in a foxhole protecting America than most of those in Congress. Just sayin...

So on to some breaking news — President Trump released the above last night. This is big news. This is really big.

I read the report he mentions and you can too here: [Peter Navarro report](#)

Notice however he is calling for a big protest in DC on January 6th. That's stunning and I'm sure will send those squishy Congressmen and Senators into a tail spin. Oh my goodness what fear must be running through their veins today.

I for one am not afraid. I believe Trump has our back. I believe God has anointed him for such a time as this. I believe those of us who love the Lord will be given a chance to participate in spreading His truth and bringing others to the saving grace of Jesus through these difficult days.

I'm excited for the future. I'm pumped that people are being exposed. I'm thrilled with every day Americans who are willing to sacrifice it all — as our founding fathers did. I'm happy those in leadership are being exposed as wimps or as warriors. I'm really pleased that the military is ready for action and will protect us should the bad guys come to town. I'm thankful for those who delved into this election fraud and are publishing their findings to educate the masses. And...I'm so incredibly blessed to have friends like you to share in this exciting time in the history of America.

Saddle up friends. We have a country to save!

And by the way — fear not for the Lord goes before us and will ensure those who tried to destroy our nation — will instead be destroyed themselves. That's a biblical promise in Obadiah 15.

Have a great weekend and enjoy the peace before the storm. It's coming and we welcome it. It's the only way to clean up this mess.

Perissos,

Perissos is a Greek word found in the Bible (Ephesians 3:20) meaning  
“exceeding abundantly, beyond what is expected, imagined, or hoped for.

Billie uses this as her signature word for 2020 — because she hopes you  
will live your life beyond what is imagined or hoped for!
